

Name-Abhijeet Jadhav

Class- Mtech Comp Sem1

Exp2 AIM: Write a menu-driven text application to maintain bank accounts of customers using Lists, Dictionary, Strings and Sets. This application handles error and exception using try block. The application allows following operations as python functions:

i) adding and delete accounts of customers, ii) deposit and withdraw money to/from accounts, iii) list last 3 transactions on a particular accounts and iv) exit from the application.

```
In [2]: cust_trans={'rahul':[4100,5008,470,100,9870],'kartik':[120,550,8790,5410],'rajat':[250,
